Subject: Biofeedback for Urinary Incontinence*

Effective Date: October 22, 2002

Department(s): Utilization Management

Policy: Biofeedback as therapy for stress and/or urge urinary incontinence will be covered under the Plans administered by QualCare, Inc.

Objective: To provide proper and consistent reimbursement and to delineate criteria for coverage of biofeedback for a specific indication.

Procedure:

A. The diagnosis of stress and/or urge urinary incontinence must be documented in writing by a physician.

B. There must be written documentation of a trial of at least 4 weeks of pelvic muscle exercise training, without biofeedback, that has failed. No more than 4 of these pelvic muscle exercise training sessions shall be in the setting of a provider’s office or other facility.

C. A maximum of 12 sessions will be authorized for biofeedback (CPT-90911) for stress and/or urge urinary incontinence (ICD 9-788.31,788.32,788.33; ICD-10 N39.41, N39.3, N39.46).
